

## STAINLESS STEEL TUBING & FITTINGS

Fogco Prefabricated Stainless Steel tubing and double ferruled high pressure compression fittings are designed for the ultimate in quality and durability. Fogco's proprietary fitting design and the computerized robotic welding process ensure consistent, high quality welds that are the best in the industry.

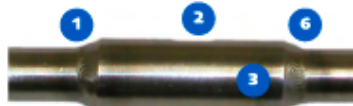

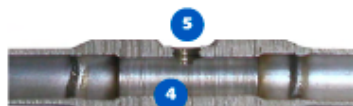

When used with our PREMIUM & CERTIFIED SERIES fog pumps and compression fittings, this tubing represents the highest quality materials available for installation of a high-pressure fog system. This 300 Stainless Steel is a rigid line rated in excess of 3000 PSI. It comes in standard 20' lengths and 3/8" O.D. with 1/2", 3/4", and 1" O.D. sizes available. Pre-fabricated options include 3/8" and 1/2" O.D. with 18, 24 or 30 inch nozzle spacing and available in 10' or 20' lengths. Custom sizes and configurations are available. Powder coating is recommended for a professional finish.

Fogco has recently developed a larger stainless steel nozzle fitting for the 1/2" prefabricated stainless steel fog lines. The new fitting provides a larger through hole than the old prefabricated fitting thereby reducing pressure loss while increasing flow capacity by 50%.

3/8" OD PREFABRICATED STAINLESS STEEL TUBING				
Part No.	Length	Nozzle Spacing	# of Nozzles	Weight lbs
92900	20'	Blank	None	2.50
92951	20'	18"	13	2.95
92952	20'	24"	10	2.90
92953	20'	30"	8	2.85
93080	10'	24"	5	1.45
93081	10'	30"	4	1.38
1/2" OD PREFABRICATED STAINLESS STEEL TUBING				
92839	20'	Blank	None	3.4
93577	20'	18"	13	4.0
93578	20'	24"	10	3.95
93579	20'	30"	8	3.9
BRASS & STAINLESS STEEL COMPRESSION FITTINGS				
Brass	Stainless			
92820	92819	3/8" x 3/8" union		
92822	92836	3/8" x 3/8" x 3/8" union tee		
92823	92837	3/8" x 3/8" union elbow		
92825		3/8" union cross		
92826		3/8" comp x 1/4" NPT female adapter		
92827		3/8" comp x 3/8" NPT female adapter		
92828		3/8" comp x 1/4" NPT male adapter		
92829		3/8" comp x 3/8" NPT male adapter		
92830		3/8" x 1/4" reducing union		
92831		3/8" compression nut		
92832		3/8" compression front ferrule		
92833		3/8" compression back ferrule		
92834	92852	3/8" end cap		
92901	92860	1/2" x 1/2" union		
92902	92863	1/2" x 1/2" union elbow		
92903	92862	1/2" x 1/2" x 1/2" union tee		
92915	92874	1/2" end cap		
92821	92835	1/2" x 3/8" reducing union		
**CUSTOM STAINLESS STEEL FABRICATION AVAILABLE				

### OURS

1. Robotic orbital weld for high consistency
2. Unobtrusive profile
3. Argon purge for each weld ensures no burning (sugaring)
4. Machined & cleaned fitting
5. Flat surface for nozzle seal
6. Laboratory grade welding process

### THEIRS

1. Inconsistent weld
2. Conspicuous extended riser
3. Hot weld & burning (without Argon purge) encourages rust
4. Burrs from drilling hole
